Comic Script (first four pages)

My School
Kindling

PAGE ONE (Five Panel)

1. In the two large top panels, are similar shots of Ms. Smithers standing behind her desk in the science classroom, addressing the front row of her class (we see their backs) From left to right, Carson Studman, Randi Jumper, Pat Graves, and anonymous. On the screen behind Smithers is a diagram of the Earth (blue encompassing green surrounded by red circles.

Smithers

As you can see here global warming caused the incremental rising of sea levels, because our ancestors were simply too involved with their own lives to consider the effects irresponsibility would have on future generations.

2. Similar setting but with Smithers pointing to the screen, showing more blue and less green on the diagram.

Smithers

Despite having evidence that global temperatures were the highest they had ever been in the history of the planet, in their hubris, they dismissed that evidence on the grounds that it could be faked.

3. Opposite angle, MS, Pat Graves, with his hand raised.

Pat

But, didn't they realize that, even with the mammoth computers and archaic technology they had, anything can be faked?

4. Reverse Angle MS on Ms. Smithers.

Smithers

Again, I remind the class of the arrogance and ignorance of the past. We're speaking of a time when Solar Energy was still considered an esoteric venture.

5. High angle MS of the back of Carson at his desk, holding a futuristic device, Personal Assistant (PA), with other students crowded around.

PAGE TWO (Six panel)

1. MS, Ms. Smithers glaring down at Carson and the crowd huddled around him from behind her desk.

Smithers

Mr. Studman, how do you think this effected the development of the flying car?

2. Reverse angle, back of Ms. Smithers, front of Carson, red face, embarrassed, looking up at Smithers.

Carson

What, did you say something about Principal Reed taking you sailing at a car dealership?

3. High Angle of the entire class.

Class

Chuckling.

4. MCU Randi Jumper, behind her desk, looking up at Ms. Smithers.

Randi

No Carson, Ms. Smithers was trying to trick you into making an incorrect observation about why people believing that the Universe was created in a week a thousand years ago caused the oceans to swell.

5. MS front of Carson, holding his PA.

Carson

Whatever man, this new app is way more interesting than theignorance of stupid people back then.

6. MS, Ms. Smithers, standing over Carson's desk, glaring down at Carson, his PA, and the crowd huddled around him.

Smithers

Pray do tell then, Mr. Studman; what is so fantastic that you think you do not need to learn about the sins of the past?

PAGE THREE (six panel).

1. ECU on Carson's PA, a photo of a girl (Paige) is displayed with a bar graph reading high below her name.

Carson (OS)

As you can see, Paige,

2. CU Paige, at her desk, face red, blushing, looking terrified and embarrassed.

Carson (OS)

back there is primed and ready. When class is over, I think one of us should see if we can't help her out, if you know what I mean...

3. MS Carson, smiling devilishly, his PA, and the crowd.

Pat

But how does it work?

4. CU Randi, at her desk, chin resting on palm, bored.

Randi

You see, it uses the biometric readings of everyone's PAs to gauge your level of sexual interest, then alerts other users to your, um, "availability."

5. CU Carson at his desk, excited.

Carson

When you put it like that, no wonder this rooms reading so low! All except for Paige back there, but we all know about her thing for lab coats!

6. High Angle LS of Ms. Smithers' back, Paige is running (from left to right), toward the door, in the background.

Smithers

Now class, if we can get back to the subject at hand, and leave your Neanderthal urges alone until the end of class.

PAGE FOUR (6 panel)

1. LS of the teacher's lounge - Smithers, Loves, the elderly Librarian, Ms. Nicole, the history teacher, Mr. Wesker, and Waxmen are all seated, at a table covered in folders, loose papers, tablets, their lunches, and mugs of coffee.

Loves

I actually like Kindling.

2. CU Loves

Loves

It lets me know a guy's intentions and who to look out for.

3. CU Waxman

Waxman

Back in my day, you had to swipe left if you weren't interested and right if you were.

4. CU Waxman taking a sip from his mug.

Waxman

Then you had to try and coax the broad with an elaborate rouse of flowers, candy, and dinner.

5, CU Ms. Nicole smiling and blushing, while looking down at her plate.

6, 2SMS, Wesker, with his palm planted firmly on the table, looking directly ahead, beside Loves as her device vibrates before her (in the panel's bottom right corner, below the word balloon).

Wesker

I too find the entire notion in danger of nullifying the courtship procedure and eliminating the concept of romance entirely.
